Dear Mr. Glick:-

We wish to acknowledge your letter of April 28th and might state that it was indeed a pleasure and that the pleasure was all ours when your father visited us recently, and it will also be a pleasure for us to serve you or your father and you may make our office your headquarters at any time you are in this vicinity of our state.

In regard to the seed that we purchased from you this growing season it is the writer's honest opinion that it was the best seed that we have ever purchased from anyone. We, as well as our growers, have grown the most beautiful tomatoes that have ever been produced on our mucklands. They are as near perfect as can be grown. Your seeds produced a crop that was the only car in this section during this season that absolutely graded U.S. 1 tomatoes. Out of the car of 560 lugs 90% of these tomatoes sized 5 X 6's.

The fruit and vines have held up a little longer than normal, they have produced a better sized fruit and with less puffiness and catface than usual, and practically no stem cracks. We have been fortunate enough in securing the top prices.

YOU, TOO, CAN PLAY SAFE WITH GLICK'S SEED!
